NEW DOWNTOWN STORE — These pictures dramatize the difference rebuilding and modernization have made at the new location of Bernice's Dress Shop, top picture. Below, the picture shows the former building at Main and Houston. The specialty shop opens Thursday following about three months of construction work.

Construction Hits Peak, Topping '62

WRIT FILED FOR SHUFFIELD'S BAIL IN COURT HERE

A writ of habeas corpus was filed Wednesday in Milam District Clerks office by the attorney for Darrell Shuffield, of Rockdale, who is being held in County jail without bail.

Attorney Charles C. Smith filed the writ seeking to have Shuffield released on bond.

District Judge W. C. Wallace said the writ would be set down for hearing and would issue. At presstime Wednesday no date had been scheduled for the hearing.

During an examining trial on the murder charge pending against Shuffield, Judge Jess Brock rendered the decision which resulted in the accused being bound over for the November term of the Milam County Grand Jury. The trial was held last Friday afternoon.

Testimony was heard from nine witnesses, testifying for the State, concerning the happenings at the Oak Grove Inn on the night of Oct. 12.

Shuffield, 31, is charged with the murder of Albert Ray Wheelus Jr., 21, of Lexington, who was killed in the Rockdale tavern on US Hwy 79 four miles west of Rockdale.

Wheelus was beaten about the head and shot in the neck. He died in a Temple hospital at 6 a.m. October 13.

Judge Brock, upon the request of County Attorney John Henderson, Jr., denied bail to Shuffield, and ordered him returned to the County jail in the custody of Milam Sheriff Carl C. Black.

Charles C. Smith, attorney for the defendant said "His - Judge Brock's decision was incredible."

A statement, signed by Shuffield, was introduced into evidence during the trial by the defendant's attorney.

Witnesses questioned were Bobby Smith of Austin, Juanita Dymke and Bobby Reed of Lexington, Leroy Riske, Dennis Todd and Billy Clyde Morsko all of Rockdale and Carol Smith of Austin.

Deputy Sheriff Thelston Morgan, of Milano, was also put on the stand and questioned along with Sheriff Black.

Henderson was questioned by Smith concerning the States witness. A list of four more persons was given who could be brought in to testify at the Grand Jury session

Traveling Yoemen

YHS To Battle Hearne Eagles

The Cameron Fighting Yoemen tangle with the fast moving Hearne Eagles in their second district game of the season to be played at Hearne stadium Friday night.

Hearne was downed last week by a strong Rockdale club with a 40-0 score.

Cameron tied the first game with A & M Consolidated with a gridiron deadlock.

Hearne will have the edge by having a speedy backfield. Coach George Kirk said the Batson twins are fast at their halfback slots. The sons of head coach, Ken Batson, also have a brother who plays the defensive guard spot and as a sophomore shows great promise.

"They are bigger than we are, have more team speed and are tough as a boot," Kirk said. Two big fullbacks at 180 pounds add a lot of strength to the Eagle backfield.

Their line also has good size with only two guards that weigh about 150 and 155 pounds, but they are quick. To their advantage is also two good ends who can catch those passes.

Last week they were downed by Rockdale 40-0. Kirk said Hearne went to Rockdale prepared for passes, slick end runs and anything else fancy the Tigers had tried all season. Instead, Rockdale used the straight T formation and ran the same two or three plays up the middle.

Kirk said he thought it was the Rockdale Tigers brute strength that won the game for them.

With the Yoemen and Hearne seemingly being down last week they should be up and this could well be one of the best games of the season.

The Yoemen have shown a lot of promise with their strong defense and have been improving steadily on their offensive strength.

Cameron plans to defense for Hearne about like they have been working. "Our boys love to play defense and we haven't allowed many points since that first game with Rosebud."

Mr. Jack Hughes, principal of Yoe High School, has announced that general admission tickets for Friday night's game at Hearne will be on sale in his office Friday morning.

BUILDING ON RISE IN LOCAL AREA

Building construction is on the rise in Cameron and is much better than a year ago, according to City Secretary Buddy Fuller.

Seven building permits have been issued so far this month Fuller said.

During the month of September nine building permits were issued for a total of $61,650.

The $15,000 project for the new unit of the Full Gospel Church and renovation of the present church structure is now underway.

Workmen are presently building the framework for the new unit. When completed the church will have 3,780 square feet. The structure will be finished in paneling, tile and carpet flooring and new lighting central air-conditioning and heating is to be installed.

The exterior will have a new front, 16 foot steeple, all brick walls and a paved parking lot on the west side of the church.

Two homes have been moved in Cameron in three past weeks. Stewart Perkins has moved a house to the 13th street and when refinished will be his new home. The Alvin Nolte home has been moved to 9th street and a new residence will be built at the home site.

Meanwhile, work is still going strong at the Eastern Seed Fertilizer Building site located along the Santa Fe Railroad. Upon completion the 6,600 square foot structure will house the automated bulk processing plant.

In downtown Cameron, a crew of workmen are renovating the former Leather Shop and Atkinson Insurance and Real Estate buildings. The location on East 1st Street will be the new quarters for the Cen-Tex Coin Mart.

Four new homes in the Country Club Estates are reaching the stage of completion with only interior work needing to be completed.

Also the A. J. Rosenburg home on North Davis is moving along swiftly with the framework now completed.

New Church Unit Underway Here

Construction has gotten underway on a new unit to the Full Gospel Church, located on East 4th St. in Cameron. Plans also include complete renovation of the present church building.

The Rev. H. M. Bowley said the new 30 by 31 foot unit will add 3 additional classrooms, Evangelistic quarters and a church office, to the present church structure.

The present structure will be completely remodeled. Interior improvements include mahogany paneling, new carpeting and tile work, new pews and some new furniture.

Central heating and air-conditioning will be installed throughout the structure along with some new lighting.

A complete program is planned for the exterior of the building. Light red brick will cover the present white wooden outside walls. A new roof will replace the old covering.

New slab doors will replace those at the entrance of the church with ornamental posts placed on each side of the front and on the new addition entrance. New aluminum windows will also be installed.

Completing the new look for the exterior will be a 16 foot spire on the top of the church at the front entrance.

On the west side of the church, the lot will be paved and used for parking. A new church sign will be placed in the middle of the 45 by 70 foot parking lot.

The $15,000 building project is contracted by Cameron Lumber Company.

With the new addition, the church will have 3,780 square feet under roof.

This is the first major construction work done on the church since the structure was built in 1944. Some improvements were done after the Rev. Bowley came to Cameron in 1949.

Yoe Band Sales Reach Final Week

Members of the senior and junior bands of Yoe High School will be contacting Cameron residents this week in their final week of community birthday calendar sales.

If you wish listings of birthdays of your family and your anniversary to appear on this Community Calendar for 25 cents per listing and one dollar for the calendar, get in touch with a band student, Monroe Fuchs or Mrs. Gene Smitherman.

104

By FML

Not all the injuries during the recent Texas-Oklahoma game were suffered by players in the Cotton Bowl.

At one point, Paula Zotz, daughter of Mr. and Mrs. Oscar Zotz, of Cameron, got so excited while watching the traditional battle on TV that she jumped up, only to throw her knee out of place.

Now almost two weeks after the game, she is still unable to walk too briskly. She had to give up band and other activities for several weeks.

Cong. Bob Poage Relates Duties To Local Lions

About 60 members of the Cameron Lions Club and guests heard Congressman Bob Poage speak on the duties of Congress at the noon meeting Monday at the Texan Cafe.

Congressman Poage, who has recently come back to Texas from Washington, D. C., was introduced by Richard Williams.

Among the guests was Narvie Caperton, a native of Cameron, who is back home for a brief visit from his post in Washington where he is secretary to Congressman Poage.

In an interesting talk, Congressman Poage gave a general resume of the duties of Congress. He related that the public only knows what the output is, or what is done at the finish, but rarely knows what work goes on in preparation for certain action voted on.

He stated that members of the Congress also have many other functions other than that of passing laws and voting on regulations.

Some of their other work includes helping service men of their district in time of need, pensions, and serving on committees in agriculture, commerce and relative subjects.

Cong. Poage said he believed government spending should be cut before any tax cut can be considered.

"My voting record will prove my belief", he added. He voted against the $11 Billion tax income cut. The $1.2 billion military pay raise was also voted against by Cong. Poage.

The sale of wheat to Russia was also a big issue in his talk. He stated three reasons why he voted for this bill: It would mean hard cash for the United States economy; would sell at world market prices and there would be no private credit beyond commercial credit.

Any American firm can sell for export, he said. Many believe that the sale of wheat might strengthen Russia military, and they equate the sale of wheat with the sale of junk to Japan.

He said he thought the United States will gain on the deal, and added that those feeling otherwise haven't full information but he knows they hold sincere views on the subject.

Congressman Poage visited in Cameron enroute to Milano where he was to be honored.

Fire Prevention

Contest Winners Selected

Winners in the Fire Prevention essay and poster contests were awarded cash prizes Tuesday by Don Roddam, chairman of the sponsoring Chamber of Commerce Fire Prevention Committee.

Prizes were awarded by Roddam who was assisted by Gus Elley, during assembly programs held at the schools.

James Wilkinson won first place in the Yoe High School poster division. Steve Smith was second and Judson Smith won third place. Cash prizes of $3, $2 and $1 were awarded the winners in each division.

Theme division winner at Yoe High was Mervyn Johnson. Second place winner was Sherri Clore and Sandra Kovar won third place.

Ada Henderson, grades 6 through 8, first place winner in the Poster Division was Doris Ruzicka. Murray Lyle McDermott won second and Peggy Kubes third.

Ada Henderson, grades 4 through 5, first place winner was Gay Chancey. Second place went to Kathryn Kahler and third, Joe Douglas Horelica.

Linda Guliex won first place at O J Thomas High School in the poster division. Albert Whiteside won second and Glenen Whitehead third place.

O J Thomas, grades 6 through 8, poster division winner was Janice Janice Clayton. Erma Louise Watson won second place and Ella Ruth Bynaum won third place.

Grades 4 through 5 at O J Thomas had Marvin Wayne Kelley winning first place in the poster division. William Barry Whiteside won second place and Billy R. Aycox won third place.

Rites Held For R. A. Tag, Local Senior Citizen

Funeral services for Mr. R. A. Tag, 88, were held Monday at the Green Funeral Home. The Rev. C. A. West officiated with burial in the Oak Hill Cemetery. Mr. Tag died in a Marlin hospital Saturday.

Born in Austin County, he moved to Cameron from Moody 47 years ago. A retired sheet metal worker, he was a Spanish American War veteran. He was a lifelong member of the Methodist Church.

Survivors include his wife, Mrs. R. A. Tag of 705 E. 12th St. in Cameron; two sons, Harry Tag of Cameron and Lee Tag of Baytown; a brother, Paul Tag of Rockdale 2 half-brothers, Gus Westerman and Hanas Westerman; a half-sister, Mrs. Ernest Backhaus of Sharp; one grandchild and 3 great grandchildren.

The family has asked that any memorial contributions be made to the Methodist Orphans Home in Waco.

City Council Meets Hears Dept. Work

The Cameron City Council heard reports from the Water and Street Departments and approved payment of regular monthly bills at their meeting Tuesday night at City Hall.

Alvin Heft, Supt. of the Water Department, reported that work had been completed on the installation of 125 feet of 6 inch sewer line on West 8th and Polk Streets. Their other work included running water lines and doing repair work.

The Street Dept. has completed paving projects at street intersections in Cameron, according to J. B. Earle, Supt.

Board, Citizens Discuss Appraisals

Equalization Will Begin

The Cameron School Board discussed the work done by the Southwestern Appraisers Company of Dallas and decided to turn the appraisals over to the Equalization Board for their work and consideration, during a called meeting Monday night.

A group of interested citizens attended the Board meeting and during the three hour discussion were asked and urged to give their ideas concerning the proposed program.

COMPARISON TEST

Board member Alton Fuchs opened the discussion with the presentation of a random sample comparison he had compiled of the 1962 renditions and the 1963 appraisals of city properties in the Cameron School District.

"I was confused for a time and felt the board was confused also, so I went out and looked at properties and had them appraised," Fuchs said. "But in making this study of these values I have come to a decision," he continued.

Fuchs said he took at random over 60 taxed properties and compiled sheets of comparison to show the various highs and lows of the present tax structure and noted the eventual outcome if this program was accepted.

By using a 40 percent appraisal of the proposed 1963 tax percentage of the 1962 renditions he found the following to be true: Fourteen properties would be lowered and 51 properties would be raised in taxes out of the 65 city properties.

According to these figures the rate of increase varied from a high of 518.2 percent to a low 2.3 percest. On the 518.2 percent increase the tax was going from 66 cents to $4.08.

The same was shown in the decrease of taxes. The percentage ran from 1.6 percent to 66.8 percent decrease. The highest decrease per value of property was from $13.20 to $4.38 on the 66.8 percent decrease.

LOCAL MEN APPRAISE

In explaining his comparison tests, Fuchs said he took two Cameron real estate men, Gordon Baskin and Jack Tumlinson, to some of these properties and had each man, working separately and without knowledge of what the land had been appraised for, to do their own appraising.

Each man gave a higher total market value on the properties they appraised than the cards completed by Mr. Harris of the Southwestern Appraisal Co. showed.

Fuchs said the appraisal company was shooting for 80 percent of the market value and compared with the agents value it averaged 75.8 percent.

"If we do not accept this work we are faced with two problems, possibility of a lawsuit or the possibility of doing injustice to the school district," Fuchs added.

Throwing the doors open for discussion many of the guests were heard who spoke for and also against the program.

CHALLENGES PROGRAM

R. C. Law was the first to challenge the program and stated that he wants uniform taxes and there was not any man more interested in school affairs than himself, however, the land will carry just so much taxes and he felt the program was still not equalized.

"We knew this would never be 100 percent equal, I do not care if a man has 1 foot or 10,000 acres, he should be taxed equally," Fuchs said.

Baskin stated, "It is as near equal as the human element allows. Errors have to be corrected before the Equaliation board. I think they've done a sharp job," he continued.

E. A. Perrin commented, "The figures are just as unequal as before. Everyone wants to support the school but only equally."

Board member Buster Griffin contended that the farm land was not appraised properly, some land was valued at too low a rate.

DEFENDS PROGRAM

Eugene Smitherman added that in order to have a plan that was 100 percent correct that God would

District Opener

Cameron--A&M Battle To 0-0 Tie

The Fighting Cameron Yoemen and A & M Consolidated Tigers battled to a 0-0 deadlock in the District 19-AA opener played at A & M Stadium Friday night.

Stout defenses, fumbles and intercepted passes plagued the teams most of the night.

Head Coach George Kirk said the Yoemen played an outstanding game on defense but he felt that the open date last week hurt them.

"It was just one of those nights when everything we did went wrong," Kirk said.

The Yoemen threatened several times during the game. At one time they got within 3 yards of a touchdown but drew a clipping penalty fhich brought on 15 yards and ended the threat. The clipping ruling was debated as one offirial ruled clipping while the other one said the boy turned his back and it was not a foul.

With renewed determination, the Yoemen moved again to the 18 yard line of A & M Consolidated. This time the ball was fumbled and so ended the threat to score.

The Yoemen lost five of eight fumbles and had three passes intercepted.

A & M Consolidated Tigers were equally unlucky through the game and couldn't move against the stout Yoemen defense.

The Tighers penetrated to the 18 and 19 yard lines where their drives fell dead.

Late in the fourth quarter, within a minute and a half left to play, Fullback David Parsons of the Tigers tried a 23-yard field goal, but it fell short.

On the next play, Cameron Quarterback Mac McKinney had a pass intercepted by the Tigers Paul Fagan and the game ended on the Cameron 30 yard line.

"Our entire defensive unit is really doing an outstanding job," Kirk said.

McKinney drew praise for his running and passing on offense and Dicky Ponder, defensive halfback, almost ran an intercepted pass back for a touchlown. He ran through the entire Tiger line before the last man between him and the goal put a halter on him.

Dennis Jistel turned in a good fourth quarter and another freshman, Joe Fisher, playing in his first game turned in a good defensive game.

Leading runner with 78 yards was McKinney. Mike McDaniel had 42 yards and Perrin has 31 yards. McDaniel came in second.

Coach Kirk said the offensive back of the week was McKinney.

Robert Moraw was defensive lineman of the week with nine tackles. Tieing for second was Mike Perrin, Larry Paul Manley and Mike Koranek with three tackles each.

Offensive lineman was Larrf Manley with the highest offensive blocking percentage.

Buckholts Wins District Opener With 26-16 Score

The Buckholts Badgers opened District 14-B six man play Friday night, defeating the Turnersville Buffaloes 26-16.

The Badgers leaped into an 18-0 first quarter lead with three fast touchdowns. Calvin Shenkir dashed eight yards for the first touchdown, then passed to Don Glaser for the second. Glaser hauled in the 12 yard pass and sprinted 50 yards to score.

Shenkir then ran 38 yards around right end for another touchdown. This ended the scoring in the first half for the Badgers, but the Buffaloes managed to get on the scoreboard in the second quarter when Archie Lathan carried over on a 45 yard pass play.

In the final period Jimmy Jones skirted left end for 15 yards and a touchdown to narrow the gap to 18-16, but Buckholts put the game on ice when Shenkir completed a 21 yard scoring pass play to Larry Kudlacek. Shenkir kicked a two point conversion.

Turnersville got its final two points when a pitchout went astray and Shenkir was tackled in the end zone for a safety.

Badger defensive standouts were Lawrence Hanke, Dickey Jones, and Tommy Gresak.

Friday night the Badgers will meet Jonesboro on Oglesby Field at Oglesby since Jonesboro has no football field. The game will begin at 7:30 p.m.

Basketball Is Organized In District 23 - A

Rogers - The administrators and coaches of boys and girls basketball District 23A met Wednesday night and organized for the 1963 season, by re-electing Supt. B. F. Harbour of Rogers as Chairman, and J. L. Chervenka, Rogers as secretary.

District games will begin on January 10 and will end on February 11. If two teams are tied at the end of regular play, the two will be named co-champions and will have a two out of three game play-off to determine who represents the district in the state play-offs.

Bulldogs Defeat Aycox Tigers 20-8

The O. J. Thomas Bulldogs came from behind to uotscore the Aycock High football squad of Rockdale with a 20-8 score in a game played at Yoe Stadium Saturday.

Rockdale hit the scoreboard in the first quarter when June McGowan skirted in from the 8 yardline. Leroy Phillips scored the PAT putting the Tigers out in front 8-0.

The Bulldogs took over the scoring privileges when Fredrick Kelly took the ball 57 yards on their own 43 yardline and sprinted 57 yards to pay dirt and the first Cameron touchdown.

Taking advantage of the Tigers hardluck, a Bulldogs squadman, Lattimore covered a fumble in the Tigers endzone for six points. Bruce Aycox picked up the conversion point giving the Bulldogs a 5 point edge.

On a blocked punt, Isiah Knight scored from 20 yards out for the Bulldogs third score.

The final touchdown was made by Niley Rosemond on a pass from J. B. Kelley. Aycox kicked the extra point making the final score of 20-8.

Defensive standouts were Jones and McGowan from Rockdale. Outstanding on the Bulldogs squad were Lattimore Pittman and Nealy. Pittman, right guard, blocked the punt setting up the third Bulldog touchdown.

Rosebud To Have Homecoming Events October 25 - 26

A pep rally for all students and Exes begins at 3:10 p.m. in the high school auditorium to kickoff activities for Rosebud's Homecoming. Activities on October 25 and 26th.

The Rosebud Black Panthers - Lorena Leopards' football game begins at 7:45, to be one of the outstanding highlights of the annual event.

Following the game, a reception for all Exes will be held at the Belfalls Electric Co-op Building.

The Class of 1948 will have a special reunion at the D Brown Library from 2 to 1 o'llock Saturday afternoon.

The Homecoming Dance will be held at Burlington Hall beginning at 9 p.m. Saturday night. Doug Coats and the Star Dusters will furnish the music.

We wish all of you Exes a pleasant weekend, and hope you remember to pay your $1 dues.

Outdoors In Texas

By Vern Sanford

With the passing of the old Game and Fish Commission, as a result of the legislature merging the wildlife and parks, there are many of us who can shed a tear.

The old commission cannot pass without some thought of the service it has given to sportsmen for nearly 40 years.

There is no denying that when the game and fish commission came into the picture that game had been greatly depleted in Texas. Many men who killed a deer 40 years ago doubted that their grandchildren would have such an opportunity. There was practically no fishing.

Then through the tireless work of the commission and its hundreds of efficient employees, game began to make a comeback. Trained biologists were able to study the needs of wildlife. By passing this information on to the landowners, they were in a position to bring about a restoration.

Wildlife had been shot out in most counties. In Central Texas, where today there is an overabundance of deer, it was almost impossible to find a legal buck back in those days.

Bulldozers had pushed civilization into the heart of the wildlife habitat. Very few counties in Texas had any wildlife remaining.

But today the story has changed. There's hardly a county in the state that doesn't have some game in shootable quantities.

A typical example is in the Lower Valley, where the white winged dove was uprooted from the colonial nesting areas. They left and went to Mexico.

Our game commission, with the aid of both state and federal funds, was able to buy management areas; and now for the last dozen years we've been able to harvest white wings.

The commission started a quail hatchery. Even though it has been greatly maligned, it was a huge success as a plant and turned out a great number of birds.

Lack of proper cover for the birds at first limited the good that could come from hatchery-produced quail. But again landowners cooperated and today, despite the bulldozer, there is considerably more habitat than even a dozen years ago.

This same story is true of the fish hatcheries. Perhaps there are too many hatcheries. Perhaps it was economically unsound to give away fish to private landowners to stock private ponds.

But the fact remains that we have more good fishing in Texas today than the Indians ever dreamed of in their wildest imaginations. We are catching over-size bass from stock tanks in far western Texas where 50 years ago a bass was unknown.

Men and women who hunt and fish paid the bill for all this. None of the money came from the general funds of the state.

Work was hampered many times, but never stopped, by lawmakers who found it impossible to have their own way with men trained in the field of wildlife conservation. Despite obstructions our wildlife continued to prosper.

During all this time the state park system was operating with a niggardly budget.

It is entirely possible that under the new program, with parks and wildlife combined, a great job can be done.

It's The Law

Who Can Claim Wounded Game?

Suppose you are hunting and shoot a deer or a duck, which falls mortally wounded. Before you can get to it, another hunter beats you there and claims the fallen game as his own. What are your Rights?

Jim had been hunting all day without success, and had headed for home when he finally saw a deer. He took careful aim and hit the deer with his first shot. Although mortally wounded, the deer managed to run a short distance, with Jim in hot pursuit.

Roy was also deer hunting. He heard Jim's shot and saw a deer running toward him. However, before it reached the spot where he was standing, the deer fell to the ground.

Although it was obvious that the deer was about to die, Roy walked to within three feet of it, delivered the finishing shot, and quickly put his tag on it. When Jim ran up and claimed the deer, Roy said that such deer were wild alimals, and belonged to no one until killed. Since he was the one that killed the deer, Roy claimed that it belonged to him.

Which hunter has legal title to the deer?

In this case the deer belongs to Jim. Jim was the first to wound it, and did so before Roy appeared on the scene. He had mortally wounded the deer, and had it in such a situation that its escape was improbable, if not impossible. The prevailing rule is that the instant a wild animal is brought under the control of a person so that actual possession is practically inevitable, a vested property interest in it accrues which cannot be divested by another's intervening and killing it, or reaching it first.

Jim had delivered the shot which so crippled the animal as to cause him to cease trying to escape, thus permitting Roy to walk up to the animal and deliver the finishing shot. Jim had effectually brought the deer under his control before Roy took a hand in the matter. The deer legally belonged to Jim, and he can enforce his claim in court.

Miller Rhoades, et ux, to Elsie Mathis, for $6,000 consideration: Lot 7, Blk 27, City of Rockdale.

Says N. E. Barron

Cattle Rustlers Still Haunt Texas

N. E. "Peanut" Barron claims that the day of the cattle rustler is not something that has faded into history along with most of the wild and wooley traditions of the past.

His occupation of checking cattle at auction sales proves his statement. He also has a rewarding hobby of horse training that keeps his days full of variety and there is never time for a dull moment.

Barron's most enthusiastic audience is his seven year old son Johnny who always wants to hear 'Dad' has tracked down any "Outlaws" that day.

For fourteen years Barron has been brand inspector at auction sales making records of every head of cattle that go through the gates. He is constandtly in the vigidance for stolen cattle.

Employed by the Texas and Southwestern Cattle Raisers Association, Barron works under two field inspectors (which carry a ranger title) and he also cooperates with all local and county law officers.

CATTLE THIEF

"The days of the cattle thief are not gone, it has just been mechanized. Now trucks his a herd, get a load of cattle, go to another town for immediate sale, and then hit again," Barron said.

When the 'hot' cattle reach the sale Barron's work begins.

By checking the ear marks and brands and comparing them with a letter listing all stolen cattle, he has recovered hundreds of cattle during his 14 years.

"I would hate to estimate just how many head of cattle are stolen in Tepas alone each year, but there are hundreds of them and we also recover many of them", he said. Again he could not estimate just how many. Each week he receives two letters listing numerous heads of stolen cattle.

Barron's area includes Calvert, Bryan and Caldwell and he recalls from this area the largest amount he helped recover at one time was 150 head.

"Usually only about 10 head are taken at one time, but there have also been much larger amounts taken through the years," he said.

About three-ourths of the rustliny is done for money purposes while the remaining is done for food.

Cattle are butchered right on the spot and only the choice meat is taken when the thieving is done for food purposes.

"This has been done numerous imes in Milam County and the guilty party has usually been caught," Barron added.

HORSE TRAINING

Barron's occupation and hobby ties in with his upbrinbiny. He came from a Cowboy family and has always loved cattle, ranch work and horse roping.

"In my off time I specialize in calf roping and training roping horses," he said.

At the ripe age of 17, Barron began professional rodeo work and for the next 15 years made over 600 rodeos. He competed against top stars and beat two top rivals, Ted Powers and Jack Fry.

His switch from rodeoing to training horses started about the time he got 'hitched' in 1953 to Miss Kitty Walton of Cameron.

Son Johnny shares his father's hobby and during the past years has placed in 18 of the 19 shows he has entered. Seven were first places. He is presently roping calves out of the chute, being trained by his father.

Barron deals in training and selling roping horses and he says he now has the best pony he has ever had. Ben's Hot Shot is his name and he was bred and raised at Belton and purchased from Pat Cole.

Training his horses is done in a unique way. Motion pictures are used and this way Barron can see the mistakes he may be making.

With "outlaws" still operating and a satisfyiny hobby Barron continues his interestiny existence thats full of spice.

4-H Club Notes

By Charles W. Henson,
Ass't Milam County Agent

HENRY ABEL JR.

Henry Abel Jr., son of Mr. & Mrs. Henry Abel of the Sharp Community, is one of the top swine producers in 4-H. Henry started in the swine business in 1958 when he received a Sears gilt. After raising two litters of pigs, he decided to keep a gilt and sell his first gilt which was a large sow at this time.

In 1961, Henry had an open gilt in the Rockdale Show and won Reserve Champion with it. He also showed some barrows at the State Fair which placed. Also, this same year he received the Sears Boar which won the District Boar Show.

At the 1962 Rockdale Show, Henry showed four open gilts and one barrow. This time he had Grand Champion Gilt and Barrow along with the 2nd, 3rd and 4th place gilts.

At the 1963 San Antonio Show, Henry did real well. His barrows placed 1st and 2nd in the Heavy Duroc Class. The best was Grand Champion Duroc and went on to be Reserve Champion Barrow of the Junior Show.

Henry has sold all his conventional hogs so he could go into the SPF program. He now has two SPF gilts.

His Record Book on Swine was First in county and represented Milam County at District.

Not only has Henry Jr. been outstanding with swine production but also with sheep, broilers, cattle, recreation, leadership and livestock judging.

Saddle Club Sets Little Horse Show

The Cameron Saddle Club will have their annual Little Horse Show, Sunday, October 27 at 1:30 p.m.

Classes will be: Shetland Pony at Halter, Horses any size at Halter, Stallions at Halter, Shetland Pony (46" and under), 9 years and under, 12 years and under, Teen-aye Pleasure, Ladies Pleasure Men's Western, Three-gaited Open, Plantation Open, Parent and Child, 12 years and under Barrel Race, Teen-age Barrel Race, Ladies Clover Leaf Barrel Race, Men's Straight-away Barrel Race, Pole Bending Open, Ring Rare Open, Rescue Rare Open.

Officials of the Club said that this would not be a point show and that trophies and ribbons would be awarded in all classes.

Mother's Hobby Benefits Girls

Pat Hollas 10, and Judy Hollas,9, consider themselves 2 of the luckiest girls in Cameron.

Their mother Mrs. George Hollas, not only gets much enjoyment for herself but keeps her daughters happy with her many miniature creations.

"IT DOESN'T take a whole lot to keep children happy. The girls play with their dolls clothing and doll furniture all the time and it has brought many contented hours during the summer months," Mrs. Hollas said in speaking of the gifts she had made for the girls.

Their miniature toys would be the envy of any small girl.

Mrs. Hollas made two beds from cigar boxes, which she covered with gold contact paper. Clothes pins make the bed posts and the canopy is made from coat hangers. The beds are complete with mattresses, pillows bedding and canopy covers.

Tiny lounge chairs are made of salt boxes with cushions in each and covered with the same checked material as the beds. The night stand is made of two thread spools and two jar tops also painted gold. Lamps are perfume bottles.

EACH DOLL'S wardrobe ranges from shorts to evening dresses. The doll garments have every seam and tuck as in adult clothing. Mrs. Hollas has made 13 outfits for each doll and the girls have added a few of their own. The only things purchased are the hats fur stoles and shoes.

Total cost of all the furniture, wardrobes and dolls is less than $5 for both girls.

"I enjoy sewing and wish I had more time to do it," Eleanor Hollas said in speaking of the hobby she began at 10 years of age. "It is a challenge to make my own patterns or change others to fit my taste," she said.

Her children are also fortunate in that their own wardrobes are mostly originals created by their mother.

MRS. HOLLAS does not limit her hobby to the making of clothing as she is also skilled in making draperies curtains bedspreads or whatever else she may take a fancy to do. Her son Ricky, 6, also wears clothing made by his mother.

One project she has taken on is helping her daughters learn the fundamentals of sewing. They already show great interest in their mother's hobby.

Besides being an excellent seamstress Mrs. Hollas is also a junior Girl Scout leader immediate past president of the Parent-Teachers Club, member of the Garden Club and an active worker and member of the Saint Monica Catholic Church.

PERSONALS

Recent guests of Mr.and Ms. Emil Skupin were Miss Janis Smith and her mother, Mrs. Clyde Smith of Sweetwater, Mr. and Mrs. Billy Surovik and children of Dallas, and Henry Skupin, a student at A & M College.

Mr. and Mrs. John A. Blasienz of Bryan visited his father, J. A. Blasienz at Halbert Nursing Home in Rosebud Sunday.

St. Anthony School

Honor Roll Students

Sunshine Bowlers

Play For Pennent

The Leader Department team is still out in front in the Sunshine Bowling League with 25 wins and 3 losses after this weeks play.

Falstaff and New Cameron Drug are tied for 2nd place with 16wins and 12 losses. They are followed by Western Auto with a 11-17 win-loss record, National Guard with a 10-1 record and Westbrook with a 6 loss, 22 win record.

New Cameron Drug rolled the high game series with 2351. The Leader Dept. rolled 2310 and Western Auto a 2284.

High team game went to New Cameron Drug with 839. National Guard was second with 799 and The Leader Dept. third with 793.

Gladys Titsworth rolled the high game series with 454. Ida Michalka rolled a 447 and Marie Ann Laake a 441.

High individual game went to Irene Mees who rolled a 169. Gladys Titsworth rolled a 166 and Ida Michalka a 165.

Substitute Pat Titsworth had a 516 three game series. Ida Michalka held the high average of 149.

Mrs. Hennessee, Lee Marek, Marry In Home Ceremony

Mrs. Wilma Dorothy Hennessee and Mr. Lee William Marek Jr. were married Monday afternoon at the home of Mr. and Mrs. Ray Lester in Cameron.

The Rev. C. A. West performed the ceremony in the presence of family members.

The bride wore a pale blue two piece knit suit and a white orchid corsage. She was attended by her sister, Mrs. Alvin Heft of Cameron.

The groom's brother-in-law, Mr. Ray Lester, served as best man.

For the reception immediately after the ceremony, the dining table was centered with an arrangement of dwarf pink zinnias flanked by pink candles.

Following a wedding trip the couple will make their home in Cameron.

R. H. Brewer, Principal Dies

R. H. "Dick" Brewer, former principal of the Cameron Elementary Schools died October 13 while attending an educational meeting in Corpus Christi.

He had been principal of the Sidney Lanier High School in San Antonio for the past 32 years.

Survivors include his wife of San Antonio; son, Bill Brewer of San Antonio, daughter, Mrs. Sarah Jane Merritt of Houston and his mother, Mrs. T. H. Brewer of Caldwell.

In The Service

FAR EAST (FHTNC) — Marine Corporal Jurrel W. Beene son of Mrs. Osma Beene of 1407 N. Houston Cameron, is a member of the Third Battalion Third Marine Regiment, Third Marine Division which is embarked aboard amphibious ships of the Seventh Fleet in the far East. Following the landing exercises the battallion will return to its home base on Oginawa.

Local School Need Noted

By Lois Sapp

A tour through the Cameron Public Schools reveals a drastic need for many, many things.

The buildings are in desperate need of supplies, equipment and major and minor school repairs in order to give the Cameron children every possible advantage of receiving an education that will be inferior to none.

BEN MILAM

Going into the Ben Milam School, which is only nine years old, was the most inspiring of any of the buildings. Here they have adeuate room and facilities although their playground space is small for the number of children and there seemed to be a run on the few water fountains.

YOE HIGH

On to Yoe High School and some of the joy went out of the tour. The first thing noticed was the need of paint and repairs.

Reaching the 2nd and on to the 3rd floors some of the furniture looked as if it was about to fall down. How old is it? - the Superintendent of the School Charles Ziegler was asked.

"Yoe High was built in 1921 and this is the original furnishings," was his answer. "They are really antique and past the useful stage," he continued, "but each summer and many times during the year they have to be nailed back together in order to have enough seating for the students." What are the holes in the floor, termites? - he was asked. "That's where the desks have been pulled loose from the floor and have been screwed back down," he said.

Further questioning about the school revealed that termites had damaged Yoe High and also Ada Henderson. It would cost $1,200 to exterminate the two buildings. Reparis are also needed to mend the damage done. How much is allowed in the budget to cover repairs and equipment? - $7,000 for the nine school buildings.

SCIENCE DEPT. .....

At Yoe High the Science Department is probably the hardest hit for lack of proper equipment. Lab sets are outdated and almost unusable In the Junior High School there is no lab and although most schools are now giving more training in this field than ever before, the Ada Henderson students training is limited for the lack of demonstrations and experiments.

Occasionally the Junior High students see slides and films but this is rare due to the fact that there is only one movie projector for the entire school system. The one they have is old and in need of repairs. When it in working condition it is passed back and forth between the Science Department, Social Studies Class, Homemaking Classes, Ag Classes and Physical Education classes.

When informative movies can be obtained free of cost it is a shame that they have to sit on the floor in some office unseen.

FOREIGN LANGUAGE .....

In the Foreign Language Department equipment is also badly needed. A recording machine is a vital instrument. Instead they have two tape recorders that are also used in five different departments in Yoe High and also in Ada Henderson.

"There just isn't enough time for the instruments to go around," Ziegler said.

Any area in the academic field is in need of either mechanical equipment or reference materials.

A look at the Library reveals th. at it is not what it should be to provide a good learning situation.

Out of a $1,920 budget for library books and supplies for all the schools, there is not enough allowed to provide enough books. However the library is not quite as bad as some other areas and would cost less to get into good condition.

ADA HENDERSON

The grounds around Ada Henderson seemed to be covered with children, in fact they were taking over most of the high school grounds too.

Inside the same conditions were true as in Yoe High, except maybe worse. A class was being held in the Library due to lack of space. In three rooms there was again the original furnishings that were placed in the rooms when Ada Henderson was built in 1925. Repairs were needed on walls, windows and floors and a coat of paint was needed.

What is one of the major problems in this building?

"Heating facilities is one problem, the steam boiler doesn't have room controls and the south side of the building is extremely warm while the north side of the building is freezing," Ziegler said. The same problem is also present in Yoe High.

The kitchen has no outside ventilation causing the food odors to remain in the building which is unpleasant. They do not have the automatic bell system and the PA system is not in working condition.

"The building structures are fairly sound and only need a lot of maintenance," Ziegler added.

YOE GYM .....

Still another building, the Yoe Gymnasium, is one that is much utilized but is inadequate for the 539 students who use the building.

This one building takes care of the homemaking department, band, physical education classes and athletic department. Many of the students from the 7th through the 12th grades use this building more than one time a day.

The dressing rooms, located under the bleachers, would not handle the high school alone. There are so many students using the few lockers that students have to share storage space. The dressing rooms are not well ventilated and because of the lack of fresh air, are damp. Equipment is also stored there and a constant watch is needed to keep it in workable condition.

Repairs and painting is also needed throughout the gym building.

The Homemaking Department is located in a place which makes for a poor learning situation. With a 100 piece band practicing overhead, in a room with equal lack of room and facilities, it is difficult to hear. They also have inadequate lighting for sewing.

Band members are in need of instruments and a close look at a band uniform reveals the years of use they have undergone.

"We try to provide adequate protective equipment in the athletic department to prevent injuries as much as possible, but there are no fancy uniforms or any extra equipment purchased for this department," Zeigler said.

VOCATIONAL INDUSTRIAL ARTS

The Vocational Agriculture and Industrial Arts buildings are more recent and still in good shape. However, they need more equipment in the way of hand and power tools.

OJT SCHOOL

O J Thomas' main school buildings are in better shape than any other schools in the Cameron Independent School District, and at present are not crowded. However, their band too is in need of instruments.

"Teachers are working under a handicap, but under the circumstances, they are doing an excellent job with what they have. But they could do so much better if they had the proper equipment," Zeigler stated.

"All you've done so far with that camera you got in the West Ads is waste film!"

COMES TO SAFEWAY!

SAFEWAY

FUN GAME OF THE YEAR—STARRING TV'S BILL CULLEN

2 WIN MERCHANDISE

If the card you have is a merchandise winner, the item will appear below the "TV Big Winner Number." This could be any ONE of the following:

Herald Editorial Page

Redistricting Controversy ....

The Federal District Court ruling calling Texas' present congressional district unconstitutional has stirred a controversy to end inevitably with some reworking of the 22 Texas districts and a 23rd congressman-at-large.

Rep. W. R. "Bob" Poage in remarks before the Cameron Lions Club Monday said if allowed to stand the Court decision would create the most inequitable situation possible, requiring all 23 Texas congressman to run at large next year.

For rural districts, it would mean absence of representation, he said, in that emphasis will be placed mainly on population and not on area or land mass, termed a basic consideration in American form of government.

The hard facts show, however that five men at present represent 3,420,331 or one-third of the 1960 Texas population count, with Dallas' Cong. Joe Pool now congressman-at-large, whose post likely will adjudged part of Dallas County Federal representation. That county district has one congressman representing 951,527 people, the largest single congressional vote in the U. S. House of Representatives.

The five representatives of this one-third of Texas population come only from the four counties of Bexar, Tarrant, Dallas and Harris (2).

At state will be single representation of such districts as Congressman Roberts' 4th with 216,371 up to Congressman Beckworth's 3rd with 293,942. In between are five other districts with fewer than 300,000 constituents. They represent primarily Northeast and Southwestern Districts, several of which cover areas the size of some New England States. It doesn't appear Central Texas would be materially affected.

Gov. Connally through the attorney-general is appealing to the Court of Appeals and on to the U. S. Supreme Court if necessary. Timing of the decision has brought cries of "politics", since the two majority judges were Eisenhower appointees. The dissenting judge was appointed by President Kennedy.

If the decision holds, it invalidates the whole Texas congressional districting structure and Texas' rural-leaning Legislature then will have to focus on the metropolitan surge in Texas.

Our guess would be that the four metropolitan county - districts will ultimately gain at least two more representatives including Cong. Pool's at - large post and the possibility of a third for the booming Houston area.

Queen Crowned At Rogers Carnival

Barbara Smith was crowned Carnival Queen for the Rogers High School division in a ceremony at the school gymnasium Saturday night. Miss Smith represented the senior class and was escorted by Leroy Schiller.

Junior High Queen was Joan Sulak escorted by Stevan Ward, students of Mrs. Selma Cannon and Darwin Schwertners 8th grade. Fourth grade won the intermediate grades contest represented by Diane Psencik and Leon Petty and in the primary grades division Mrs. Nancy Nabour's 1st grade won represented byCheryl Jungman and Billy Nabours.

Partilipating in the program were Supt. H. F. Harbour, Mrs. D. D. Ward, PTA President, and Jerry Moore.

Ada Henderson Has 36 On Honor Roll

In Ada Henderson School, each six-weeks grade reporting period, an honor roll is prepared which includes all students in the 6th, 7th and 8th grades who have met the requirements, according to Ray Stevens, Ada Henderson, principal.

The following requirements must be met in order to make the honor roll; a ninety average in each subject taken and no unsatisfactory conduct grades. An unsatisfactory conduct grade is any grade below ninety in citizenship.

"Excellence in grades, both academic and conduct, should be the goal of each and every student," Stevens said.

Sixth grade honor roll students are: Rebecca Angell, Linda Bowley, Jane Callaway, Corliss Chamberlain, Sandra Dusek, Mark Hensley, Monty Humble, Edna Hutson, Annie Lesikar, Carolyn Mitchell. Lora Nelson, Bill Perrin and Ronald Richardson.

Seventh grade students are: Dorothy Condray, Sharon Cook, Gayle Harper, Barbara Hickman, Alma Houston, iKtty Kestenbaum, Jerry Kopriva, Debbie Lsroewizn larry Kopriva, Debbie Lewis, Carol Lucko, Marilyn Perrin, Doris Ruzicka, Paul Ray Senkel, Diann Tumlinson, Lynn Weems and Bette Whitley.

Eighth grade honor students are: Sara Arthur, Linda Fleming, Charles Maddox, Linda Richardson, Terry Ripley, Jackie Robbins, Kathy White and Aleta Zawadzke.

Mrs. J. A. Blasienz and her granddaughters, Mrs. Robert Mays of Temple and Miss Dorothy Bell, a Baylor University student, spent the weekend in Dallas with Mr. and Mrs. D. D. Harrison and Jerry and attended the Texas State Fair while there.

Poll Tax Won't Affect Schools

By Vern Sanford

AUSTIN - School people have inquired whether passage of the constitutional amendment on November 9, removing the poll tax as a requirement for voting, will cut down on State aid to schools. The answer is "no."

Dr. D.Richard Bowles of Austin, former president of the Texas State Teachers Association, says repeal of the poll tax will not harm public schools financing since the levy provides only three-tenths of one per cent of State aid to local schools.

He noted further that the Amendment does not call for cancellation of the poll tax. It merely removes it as a requirement for voting. He added that the law is written so that if a school district lacks any thing toward its minimum program, "it will be automatically made up from the Minimum Foundation Fund."

"School people who feel that the poll tax should be removed as a qualification for voting should have no hesitation about voting for Amendment No. 1 on November 9," Dr. Bowles said.

ALCOHOLISM RATE HIGH - Educating the public on alcoholism and trying to give aid to alcoholics is a very difficult job. But it is one to which the six-member Texas Commission on Alcoholism and its director, Macon W. Freeman, are devoted.

It is estimated that there are close to 6,000,000 alcoholics in the U.S. with some 300,000 of these in Texas.

Freeman says the alcoholic tries to hide himself. His family and friends try to shield him. Together they succeed so well that most people think he's buried on skid row.

"About three per cent are on skid row. But more than 90 per cent are your neighbors," said Freeman. "They have good jobs. But they are disturbed and their families are disturbed."

He said that for every 100,000 alcoholics who are rehabilitated, another 250,000 get sick. Ministers, doctors, nurses, social workers, Alcoholics Anonymous and just plain interested citizens are working just that much harder to combat the disease. He said an estimated 50 to 75 per cent of "identified" alcoholics can be cured.

Texas Commission on Alcoholism works for education and rehabilitation through cooperation with other state agencies, and with some 30 community councils on alcoholism.

TEXAS IS AVIATION MINDED - Texas provides more airports for civilian aircraft than any other state. A recent survey shows that Texas has 621 civilian and joint-use airports. California, which follows second, has 505.

However, California leads in the number of aircraft - 12,073 - while Texas' civilian aircraft total is 7,325.

Aviation is the subject of a lot of talk among state agencies.

Texas Industrial Commission added a licensed pilot to its community coordinator staff.

Two flight safety supervisors with the Texas Aeronautics Commission - John G. Uranga and Laddie J. Roark - are conducting flight safety courses this month in Graham and Breckenridge.

State Legislative Council is making a study of the possibility of a state agency aircraft pool.

PARKS PULL VISITORS - Texas' 46 parks drew 7,200,000 visitors during the 1962-63 fiscal year. That's an all-time high, according to J. Weldon Watson, executive director of the Parks and Wildlife Dept.

Of 2,200,000 autos checked, 112,932 were from out-of-state.

McKenzie Park near Lubbock attracted the most visitors, with 1,800,000, rostly followed by Garner at Uvalde with more than 1,000,000 and Hdntsville with 614,335.

Garner Park was first in campers with 172,683. Huntsville had 33,310 and Inks Lake 38,811. Parks with more than 25,000 campers included Lake Brownwood, Palo Duro Canyon, Possum Kingdom and Tyler.

STUDY COLLEGES - Commission on Higher Education points to the need for top physical facilities, and weeding out of course duplications at new Angelo (San Angelo) and Pan American (Edinburg) State College.

Commission approved graduate programs at the University of Texas Graduate School of Biomedical Sciences at Houston. But it declined to take any action on a second request for two new doctorate programs at Texas A&M.

Dr. Joaquin Gonzales Cigarroa Jr., Laredo physician, was sworn in as a Commission member. He succeeds Jack Woodward of San Angelo.

Meanwhile the Governor's Committee on Education Beyond the High School which is studying college needs received a set-back. Its executive director Dr. A. B. Martin resigned due to ill health.

Dr. Martin has been on leave of absence from his job as president of Amarillo Junior College. Chairman H. B. Zachry of San Antonio said plans for replasing Martin are inrompiete. Meanwhile he will remain as a member of the Committee.

PLAN INDUSTRIAL PROGRAM - Texas Industrial Commission set the stage for an expanded program after taking on three new members.

Claude Brown of McCamey Leslie Burnett of Austin and J. B. McDuff of Crockett attended their first session.

Ray Horton of Houston arcepted appointment by Governor Connally to a new term.

Chairman E. B. Germany of Dallas named Brown chairman of a finance sub-committee. He also appointed McDuff and Burnett to the Commission's sub - committee on public relations along with John Ben Shepperd of Odessa.

Commission ramrods the State's program of advertising for new industry to boost the Texas economy.

OLD PHILOSOPHER

Philosopher Doubts Public Opiniin Poll Showing 68% Of Us Satisfied With Income

Dear editar: .....

I have long felt that a public opinion poll is like a sports writer's guess on next week's football scores. When he's right, he's an expert, and when he's wrong, he doesn't know any more about it than the rest of us.

But people like to read such things, and it's a good thing. If they didn't, if they liked to read only things which are 100 percent right and infallably wise, you and me would be hard up for readers, espcially me.

What got me started on this was a national public opinion poll the other day which reported that 68 percent of the white people in this country are satisfied with their income.

I don't know who all the poilsters interviewed, but they didn't get around to me.

In fact, come to think of it, I don't know who they interviewed to come up with this figure. Wasn't anybody I'm acquainted with.

I don't mind saying I'm not satisfied with my income, never have been and never will be. Moreover, I don't know anybody who is. Regardless of what a man makes or how much his income grows, if he has any confidence in his family he knows ahead of time they'll find a place to spend a little more than he makes.

I don't mean to say a lot of people don't consider themselves lucky to be getting what they are, but I just never have encountered a man who wouldn't be interested in a little more. A man with a row boat wishes he had a speedboat. A man with a speedboat wishes he had a cruiser; a man with a cruiser wishes he had a yacht. I don't know what it is a man with a yacht wishes, but it's something. Personally, I couldn't use a yacht, but anybody who thinks I'm satisfied with the income from this Johnson grass farm obviously throught Tom Dewey was going to beat Harry Truman.

I don't know how many interviewers the Gallup Poll has - the outfit that took this poll - but it would be inresting to find out how many of them are satisfied with the income they have. I have a notion Mr. Gallup could have saved some money just by interviewing his interviewers.

Understand though I'm not so dissatisfied with my income I'd do what it takes to improve it. I didn't say I was dissatisfied with the amount of work I'm doing, only with what I get for it.

Yours faithfully,
J.A.

Plaque To Honor Sharp-Shooters

By Vern Sanford

At San Antonio recently a bronze plaque was unveiled. The sight of it brings back many memories to most old timers.

The plaque honored the Toepperweins - Ad and Plinkey. They are without a doubt two of the greatest shooters who ever lived. With this plaque their memory will live far beyond the story of William Tell.

The Toepperweins were a husband and wife team, unexcelled with both rifle and shotgun.

It is not too unusual for a man to develop high proficiency in marksmanship. But Elizabeth Toepperwein, better known as Plinkey, did. She was the only woman ever to shoot in the Seagart, N.J. National matches and win over the military. She required the personal approval of Teddy Roosevelt before she could collect the trophy.

The San Antonio plaque is recognition in itself. It recounts:

"In December, 1907, at the San Antonio Fair Grounds, in ten consecutive days of shooting at 2¼-inch wooden blocks thrown into the air at a distance of 25 feet, Ad Toepperwein missed only 19 out of 72,500, setting a world's rifle record which has never been excelled. During this exhibition which was a public one witnessed by a large number of people, he made straight runs of 13,219, 13,292, 13,399 and 14,340."

Of Plinkey the plaque says:

"On November 11, 1916, at the Montgomery, ALA., Country Club, in three hours and fifteen minutes of actual shooting time, using the same shotgun throughout her performance, Mrs. Toepperwein set a new world's trap shooting record for men and women, breaking 1952 out of 2000 targets. These targets were thrown from a regulation trap before a large audience, the longest runs being 289, 139, 111 and 106."

The Toepperweins traveled all over the world for Winchester, as a shooting team, putting on free exhibition. One of the top acts was shooting the outline of an Indian head on a square of tin. The Indian heads always were left in the town where the demonstration took place and today they represent great collector items among gun lovers.

The memorial plaque, installed on the property of the San Antonio Gun Club, was erected by The Winchester-Western Division of the Olin Mathieson Corp. Several high Winchester officials were present and took part in the ceremonies. They were officially welcomed by Mayor Walter McAllister of San Antonio, himself a shooter and a longtime friend of the Toepperweins.

Plinkey Toepperwein was born Elizabeth Servaty, Jan. 23, 1882. She died Jan. 28, 1945.

Ad Toepperwein was born Oct. 18, 1869 and lived until March 4, 1962.

Fred Toepperwein, surviving brother, was present at the unveiling of the plaque. To the Winchester group he presented a trophy that had been given to Ad Toepperwein, to be added to the collection in the Winchester museum in New Haven.

It was fitting that the bronze plaque presentation be made at the San Antonio Gun Club, where the Toepperweins had shot many times. This is one of the top clubs of the country, with military and civilian teams shooting every day, and even under the lights at night.

The bronze plaque will be where it can be viewed anytime by the general public, in recognition of the shooting ability of this remarkable couple.

They were an inspiration to many persons who took up shooting seriously after watching one of their performances.

LEGAL NOTICE

THE STATE OF TEXAS

TO: Bertha Schwab Farmer, a feme sole if living; and if dead, her legal representatives, and her unknown heirs; the legal representatives of her unknown heirs, if her unknown heirs are dead; the unknown heirs of the unknown heirs of Bertha Schwab Farmer, if the unknown heirs of her unknown heirs are dead, Defendants in the hereinafter styled and numbered cause:

You, and each of you, are hereby commanded to appear before the District Court of Milam County, Texas, to be held at the Court House of said County, in the City of Cameron, Milam County, Texas, at or before 10:00 o'clock A.M. on the first Monday after the expiration of forty-two (42) days from the date of issuance hereof: that is to say, at or before 10.00 o'clock A.M., on the 2nd day of December, A.D., 1963, in answer to petition of Carl Linke and wife, Ella Linke, in which Carl Linke and wife, Ella Linke, are Plaintiffs, and the above named are Defendants, which petition was filed in said Court on the 17th day of October, 1963 and the nature of which suit is as follows: action in trespass to try title for recovery by Plaintiffs of title to the following described lot or parcel of land:

All that certain lot, tract or parcel of land lying and being situated in Milam County, Texas, out of the J. J. Liendo four league grant and being out of the tract of 97 1-3 acres of land conveyed to Paul Schultz by H. Moerbe, deed dated October 27th, 1891, and recorded in Volume 33, pages 140-142, of the Deed Records of Milam County, Texas, and being more particularly described as follows:

BEGINNING at the S.W. corner of a one acre tract of land conveyed to T. Boriack by Paul Schultz by deed dated December 10, 1900, for the S. E. corner hereof;

THENCE N. 16 N. 188 feet with the west line of the said Boriack one acre tract for corner;

THENCE S. 16 E. 188 feet to the north boundary line of the Thorndale-Taylor public road for the S. W. corner hereof;

THENCE N. 74 W. 115.9 feet with the north boundary line of said road to the place of beginning, containing one-half acre of land, less a strip of the south side thereof granted for road purposes in the widening of Highway No. 43 and being the same land described in a deed from A. H. Weiser, et ux, to Herman P. Weiser, same being duly recorded in Volume 199, page 421, of the Deed Records of Milam County, Texas, to which reference is here made for all pertinent purposes of description.

Said land being described in Plaintiffs' original petition on file in said cause, numbered 15,323, entitled Carl Linke, et ux, vs. Bertha Schwab Farmer, a feme sole, et al.

If this citation is not served within ninety (90) days after the date of its issuance, it shall be returned unserved.

WITNESS, Grady Allen, Clerk of the District Court of Milam County, Texas.

GIVEN UNDER MY HAND AND SEAL OF SAID COURT at office in the City of Cameron, Milam County, Texas, this the 17th day of October, A. D., 1963.

GRADY ALLEN, CLERK OF THE DISTRICT COURT OF MILAM COUNTY, TEXAS

EQUALIZATION-

CONTINUED FROM PAGE 1—

have to be here to figure the values.

"We must carry the program through, do the correcting that needs to be done, and give our schools the funds they need to keep and maintain our buildings to keep the roofs from falling down on the heads of our children," Forrest Sapp added.

1861 PLAN SUGGESTED

Supt. Charles Ziegler went before the group and read minutes of previous Board meeting that pertained to the Equaliation program.

He said that steps have been progressing since 1861 when a Citizens advisory council recommended that appraisal action be taken in order to arrive at fair and just equaliation for the Cameron Independent School District.

Included in his talk was the reading of the duties of the Equaliation Board which stated, "Whereas, it is necessary that a board of equalization be appointed to examine, correct equalize, appraise and approve the lists of the assessor."

Supt. Ziegler presented a list of 13 items which he thought was the purpose of the discussion.

PURPOSE OF DISCUSSION

1. That the Board of Education and the Administration are continually working to provide the best education possible for the children in the Cameron Independent School District.

2. That additional funds are necessary for continued operation and advancement of the educational program in Cameron.

3. That the only legal method for securing additional funds is through increase in local taxes.

4. That the property values in the Cameron Independent School District were not quitable.

5. That an across the board increase in values would only multiply the error.

6. That the Board of Education did not have time nor feel competent to appraise all properties in the District.

7. That the Board of Education did not feel that an appraisal could be effectively done by local citizens.

8. That the proposal submitted by the Southwestern Appraisal Company most nearly met the needs for appraisal work within this district.

9. That the record of experience and reliability of the Southwestern Appraisal Company was sound.

10. That the Board of Education would provide active leadership within the community to sell the program of equalization.

11. That the Tax Assessor-Collector would give active support and cooperation to the program to enable it to be carried through to completion.

12. That the Board of Education and Administration entered into the program of equalization being fully aware that individuals and groups within the community would use all means within their power to block the program.

13. That the Board of Education would not jump to hasty conclusions on the basis of insufficient and or false information.

"I personally feel that the above assumptions are true. I further feel that this program is too important to the school children and the people of Cameron to junk it in the face of opposition which we knew would come," Supt. Ziegler said and continued, "Are we willing to move forward for the welfare of this school district, or are we willing to go backwards by refusing to allow the people we have employed to carry this program to completion?"

INCREASE HIGH

He also stated that if a tax increase across the board was made this year it would have to be a 30 percent increase to meet the budget.

Miss Mullinax Is Yoe FFA Sweetheart

Mickey Mullinax was elected FFA Sweatheart by the members of the Cameron Yoe Chapter at the regular meeting held in the Agriculture Building last Tuesday, October 15.

Mickey is a senior in Yoe High School. She will represent the Cameron Yoe Chapter in the FFA Sweetheart contest in Area III. Her parents are Mr. and Mrs. Jewel Mullinax of Houston.

Becky Graham is runner-up and will accompany Miss Mullinax in all of her activities. Other class sweethearts are Lyndia Griffin who was Chapter Sweetheart last year and Jolene Wied who is a senior this year at Yoe High.

Services Held For Clyde A. Caperton

Funeral services for Clyde A. Caperton, 82, of Rogers were held Tuesday October 22, at the First Baptist Church in Rogers. The Rev. John Witte officiated with burial in the Rogers cemetery. Green's furneral home of Cameron was in charge of arrangements.

Mr. Caperton died Sunday in a local hospital where he had been since suffering broken hip October 17.

He had been a resident of Bell County for the past 60 years, having engaged in farming, Deputy Tax Assessor and subscription agent for the Temple Daily Telegram.

Survivors include one son, Woods Caperton of Caldwell, a brother, the Rev. P. L. Caperton of Cameron; seven grandchildren and 7 great grandchildren.

Following the lengthy discussion, the board resumed an orderly meeting and voted on two motions.

The vote carried that E. A. Perrin would serve on the Equalization Board for this board year, if meeting with his approval.

BOARD VOTES

In another motion, the Board directed Supt. Ziegler to call the Equalization Board together and outline duties and responsibilities and allow them to begin their work.

A three man board appointed to serve on this years term were J. J. Heitman, Edwin Brod and Frank J. Hanel. They replaced a board that had been appointed earlier but resigned. Those resigning were Sam Tindall, Bill Hornung and Roy C. Law.

Naman Says Family Farms Efficient

The Milam County Farmers Union elected officers, directors, voted on resolutions and heard the State President of the organization speak at the annual meeting Tuesday night.

A crowd of over 100 persons heard President Jay Naman of Waco discuss the problems of the farmer of today.

V. W. Hauk was elected to serve the group as president for the coming year. Bud Slavik was elected vice president.

New directors elected were: Ervin Pazel, George Dodd, Leroy Laffere, Ben Ford, Fritz Doss, Henry Litzman and Ted Ford.

Among the honored guests were State Senator Murray Watson and his wife and State Rep. Milton Schiller and wife.

FU WON'T SACRIFICE FARMER

In his talk Naman said "Farmer's Union is not going to sacrifice farmers in growing areas for so-called efficiency." He said if the prices were reduced to meet the competition, farmers would have to move to new resources of water and land.

"Seems rather inefficient exploiting new resources while a surplus exists," Naman said. He added that he thought family farms have made agriculture efficient. "The family farmer takes more pride in his work and I think corporation farming needs to be re-evaluated.

Until economic incentive is put back into rural communities, the problem of youth emigration will continue to rise, he noted.

The group approved six resolutions to be presented to the State convention:

RESOLUTIONS

1. Milam County Farmers Union recommends that the National Farmers Union support legislation pertaining only to agriculture in general.

2. Milam County Farmers Union go on record recommending an extension Feed Grain Program, benefiting both the grain farmer and the cattleman.

3. Milam County Farmers Union recommends that legislation be passed making cotton available to American mills at the same price as to foreign mills, after shipping costs. Under no circumstance should the American farmer receive a lower price than the support price.

4. Milam County Farmers Union recommends a continuation of the screwworm program.

5. Milam County Farmers Union goes on record backing sale of wheat to Russia in exchange for gold or monies.

6. The Milam County Farmers Union urges both State Senator and State Representative and national senators and representatives to continue to support the REA program.

Koudelka Awarded Damage Settlement By 12-man Jury

A Milam Petit jury ruled in favor of the plaintiff Joe Koudelka in his damage suit against Porterfield Construction Company of Bryan and Otis Tramble Sr., last week in Milam District Court.

Koudelka, an employee at the Rockdale Alcoa Works, was injured November 22, 1961 when he collided with a dump truck driven by Tram-

The wreck occured at the intersection of the plant and belt-line roads. Koudelka's automobile was totaled in the collison.

The jury awarded Koudelka, of Dime Box, $6,000 in the trial held in the district court of Judge W. C. Wallace.

Attorneys for the plaintiff, Tom Mitchell of Houston and Leonard Allen of Rockdale, presented a $35,000 judgement suit against the Bryan firm.

Defendants in the case were represented by Brown, Sparks and Irwin, attorneys of Austin, and Emory Camp of Cameron.

Halloween Carnival Set For Oct. 29

All Cameronites, young and old alike, will want to attend the 'bigger than ever' St. Anthony PTC Carnival with all its traditional Halloween festivities and interesting highlights.

Many new attractions have been added this year to make the annual event more colorful and interesting to everyone.

Fine prizes will be given away the night of the carnival and students of St. Anthony school have been doing the work of selling tickets for their once-a-year attraction.

Costumes will add color and several of the new attractions will be traveling booths (rather persons roaming the crowd with games for everyone).

A supper of homemade sandwiches, pies, kolaches and punch will be sold beginning at 6 p.m. at the Simon-George Hall.

Carnival proceeds will be used for classroom supplies and playground equipment that is needed at St. Anthony school.

Mrs. W. K. Leonard and Charles McDermott are co-chairmen of this years event.

B&PW Club Hears Talk On Leadership

Miss Leona White spoke to the Business and Professional Womens Club on Personal Development and Leadership when they met Monday evening at the home of Misses Hazel and Irene Williams.

Postmaster Warns Loose Coins Sent In Mail Are Gamble

"If you have coins which you don't care about, deposit them loose in the mails," says Postmaster John R. Hays. "You can demonstrate your indifference by taking some odd pieces of silver and a cereal box top or soap coupon and starting them off to New York or Chicago in an ordinary envelope. In most instances your gamble will pay off, but occasionally you will lose."

Postmaster Hays and his postmaster associates all over the country take little notice of the wins. But postmasters everywhere become mighty concerned about the losses, for their implications are far beyond the value of the money itself.

"There are rare occasions when most everybody finds the need for sending coins by mail," says Postmaster Hays. "When this is so, a coin card should be used, or the coins should be fastened by tape to a piece of ordinary cardboard about the size of the envelope. When a choice can be made, however, a check or a money order should be used. These are the proper methods of mailing money under all circumstances."

The important reasons for keeping loose coins out of envelopes are obvious. Envelope paper is good for the purpose it is intended to serve, but it sometimes gives way to the weight or the wearing action of bits of metal. This is particularly so if the envelope is run through a stamp cancelling machine. When the machine tears the envelope and the coins fall out the post office which recovers them can neither send them back to their owners nor on to their destination, for there is no way or there are no methods of identification.

BRA Officers Board Named

The Brazos River Authority Board of Directors at a meeting in Waco this week elected new officers and wecomed four new members to its Board.

Ected are W. E. (Sam) Boger of Cleburne as president, Harry Provenece of Waco as vice president and Charles G. Lee of Mineral Wells as secretary. The Authority's general manager, Walter J. Wells, was elected treasurer.

New members welcomed to the Board by out-going president J. Howard Fox of Hearne, are Paul Boyd, Temple Ford dealer; David Casey independent oil operator of Lorock; Travis Bryan Jr., vice president and director of the First National Bank of Bryan and G. E. Waller, president of the Bank of Commerce at Angeton.

Boger is president of the Cleburne National Bank; Provence is editor in chief of Newspapers, Inc. of Waco and Lee is president of the First National Bank at Mineral Wells.

Fox has been a member of the Authority Board for 16 years, was vice president for six years and president for four years. He resigned the president's post because "I feel that other directors should share which go with being an officer of this fine Board." Fox remains amember of the Board.

The Brazos River Authority is a state agency created by act of legislature in 1929 which charges the Authority with the right and duty to conserve, control and utilize to beneficial service the storm, food and unappropriated waters of the Brazos River and its tributaries. The Authority carries out its water control and conservation measures in a watershed area which contains about 42,000 square miles about one sixth of the area of Texas, reaching from the high plains area adjacent to the New Mexico border, 640 miles to the Gulf of Mexico at Freeport.

The Authority is governed by a board of 21 directors designated by the Texas Water Commission and approved by the Governor.

IS FIRE PREVENTION WEEK ENOUGH

By Mervyn Johnson

During the coming week people across the country will be observing Fire Prevention Week. During this week most future Fire Bugs will use extreme caution with all kinds of fires, but is one week enough?

Most fires do not just happen. According to the National Board of Fire Underwriters 99 percent of the major fires every year are caused by man.

Who has not shuddered at headlines such as "Five children die in blazing fire," or "Parents and child critically burned in fire which destroys two story house" or "Father stands by helplessly as children die in playroom fire." These are not pretty thoughts but it happens every day mostly to young children, and the aged. In fact over half a million American homes are hit each year by fire, 60 homes every hour. More than 6,000 perish in these blazes every year, 17 every day.

Why does this happen?

Chiefly, perhaps people feel, "It could not happen to me." But do not take this attitude. Someday one of us may be the cause, directly or indirectly, of a fire which may take the life of an innocent child.

Perhaps someone, if not all, knows of the New London school disaster. This fire was undoubtedly one of the worst disasters of the century. It could have been prevented had someone not been a one week a year fire prevention enthusiast and a fifth one week fire bug.

Please do not be one of the millions of Americans classified as a part-time fire preventer and a full-time fire bug, but try hard and maybe you will help fill the ranks of the full-time followers of fire prevention.

If you do, we may be able to reduce the number of headlines that read," 173 hildren burned to death in school blaze in Collinwood, Ohio," "77 small bodies raked out of the ashes in Camden School fire," or "294 perish in ghastly blaze in New London, Texas." Remember, someday one of us may cause such an incident.

GREENHAND OFFICERS

Seven Greenhand officers were elected October 11 at the annual Buckhoits FFA Greenhand meeting. They are: Larry Shenkir, president; Gill Wallace, vice president; Gary Klaypas, secretary; Robert Lehmann, reporter; Jesse Mendoza, treasurer; Dennis Tomascik, sentinel; Joe M Brady, advisor.

SS Fund Reported Sound In Booklet

There is reassuring news for residents of the Temple area in a new booklet, just published by the Trustees of the two social security trust funds, Durcelle L. Allen, social security district manager, announced today.

According to the Trustees, the over-all financial status of the old-age, survivors and disability insurance program is sound.

Income from the schedule of tax contribution rates now in the law, the booklets points out, is estimated to produce adequate income to pay the benefits now provided in the law to all present and future beneficiaries, and to pay the administrative expenses of the program, without any subsidy from the general funds of the Treasury.

C. Douglas Dillon, Secretary of the Treasury, is the Managing Trustee of the social security trust funds. The other two trustees are W. Willard Wirtz, Secretary of Labor, and Anthony J. Celebrezze, Secretary of Health, Education and Welfare.

18 Million Citizens Are Older Americans

College Station--Nearly 18 million citizens are classed as Older Americans. On the face of each the 20th century has etched the lines of its troubles achievements and failures -- lines of worry over two world wars a massive depression and a cold war. Some faces show lines from work on brilliant medical and scientific successes bountiful agricultural production and amazing technical progress. This collectively says Reagan Brown Extension sociologist is the face of the Older American.

Included in the group which has probably been more closely studied than any other segment of our population during the past 15 years is pproximately 10 percent of the national population. And points out Brown included are the faces of three ex-U.S. Presidents more than a fourth of the U. S. Senators two of the nine U. S. Supreme Court Justices about one and a quarter million people living on farms about two million full-time workers more than 10,000 persons over 100 years of age over 12½ million receiving social security benefits over 2.3 million war veterans and more than 3 million people who migrated to the U.S. from Europe.

Behind their faces are the brains strengths and weaknesses of the men and women who have had a major part in bringing America into the jet and missile age. There can be no composite picture drawn of the Older American; however some facts are known about him, explains the sociologist. He may be between 65 and 70 but is probably older. He may have an adequate income but probably not. He may be working but it is unlikely. He may have a high school education but probably doesn't.

He may be in good health but probably isn't. He may not receive social security but probably does. He would like more to do but the opportunities do not exist. He may collect a private pension but probably doesn't. He may have adequate health insurance but probably and may live alone but probably not. How do we know these facts? They have come from the extensive studies of the past 15 years and more is forthcoming, says Brown. And, he adds, the findings are being used to initiate and strengthen programs dealing with their welfare.

USDA Developing Fire-Retardant Outside Paint

College Station . A new fire-retardant outside paint is being developed by the U. S. Dept. of Agriculture.

The new paint looks like ordinary paint and can be applied with brush or roller, says the USDA. But the paint's reaction to fire is entirely different.

When exposed to flame, the paint developes a thick, carbon-containing layer that acts as a fire-retardant, insulating barrier.

The experimental formulations contain oil derived from tung nuts, an important crop in the Gulf Coast region, the Department says. Research that led to the discovery is being continued at the Southern Utilization Research Laboratory at New Orleans.

The scientists are now seeking formulations that will require less paint for effective protection and still possess other properties desired in paints. No paint formulations or samples will be available vor industrial testing until this work is completed, says the Department.

Type II Brucellosis Petition Received At Health Commission

Dr. R. G. Garrett, Executive Director of the Texas Animal Health Commission announces the receipt of Milam County petition for Type II Brucellosis Control.

Proclamation by the Governor No. 218 has been issued and a hearing has been set for January 20, 1964, at 9:30 a.m., in the office of the Texas Animal Health Commission, Sam Houston State Office Building, Austin, Texas.

All those in favor of or in opposity as a Type II Brucelosis Conty as a Type II Brucellosis Conl trol Area are invited to attend. If no opposition is presented, Milam County will be designated as a Type II Control Area effective January 27, 1964.

Thorndale Carnival Set Halloween Night

The annual Thorndale School Carnival will be held Thursday October 31 beginning at 6 p.m.

The yearly Halloween affair is being co-sponsored by the Parent-Teachers Association Band Boosters Club and the schools Athletic Department.

General Chairman is E. E. Harbers who will be assisted by his wife; Publicity Chairman is Richard Jones assisted by Billy Merkord. Mrs. P. G. Adams was named food chairman for the supper.

Highlighting the carnival will be the Queen's coronation slated for 9 p.m.

Careers of six Rockdale Workers show how skills and experience have contributed to Alcoa's 75 years of progress

1942: JIMMY GREENE, Potroom Superintendent, went to work for Alcoa in Tennessee. World War II was in its second year and tons of aluminum were being fashioned into the world's mightiest armada. Aircraft production soared from 6,000 planes in 1939 to 86,000 in 1942. During the war, no other major metal industry expanded so greatly as aluminum, which experienced a 600 per cent increase in production capacity.

1945: MARLIN BOYER, Metal Service Superintendent, took part in a dramatic change-over as World War II ended. Alcoa and war-born competitors concentrated on working aluminum into every facet of America's domestic and expanding world markets. Boyer participated in aluminum's postwar success story when low prices (brought about by technical improvements and large-scale, efficient production) and thousands of enthusiastic new consumers buoyed the light metal to record tonnages.

1948: MERCER COTTON, Staff Mechanical Engineer, joined Alcoa. That year, patterned aluminum sheet, one of a series of successful postwar aluminum products, was introduced and marketed. Destined to brighten America's skyline, this was just one of many developments in the making. New casting processes, techniques for finishing aluminum alloys, production of forged bearings for aircraft applications were under way. And aluminum disc-type wheels were being introduced to the trucking industry.

1952: FRANK BAYER, among those employees who cast the first Central Texas aluminum, joined Alcoa at Rockdale, Texas. That year, Alcoa finished construction of the Rockdale Works. The plant was unique, the first to utilize lignite to produce electricity to smelt aluminum. Bayer has seen the Rockdale Works grow, both in productive capacity and in the number of products. The plant's capacity has increased by 50 per cent. Today, Bayer and his fellow Alcoans turn out a half-dozen ingot shapes in a variety of alloys.

1954: CYNTHIA SAAGE came to Rockdale Works as its popular Industrial Nurse, just at the time color came to Alcoa's architectural products. Aluminum was setting new production records. Research had begun to pay off in new applications of aluminum for automobiles and high-rise buildings. Residential applications were on the horizon. Bright packages and containers of aluminum foil were beginning to take their places on supermarket shelves.

1962: ROBERT JENKINS found employment in the Potlining Department at the Rockdale Works while Alcoa and aluminum were carving a niche in the burgeoning space industry. Alcoa foil, in the giant Echo satellites, was beaming radio signals back to earth in experimental communications programs. Aluminum powders were being compounded into space-age fuels for rockets. The giant space rocket Saturn was being engineered, with its fuel tanks of strong, lightweight aluminum.

We salute Jim, Marlin, Mercer, Frank, Cynthia, Bob and the hundreds of loyal Alcoans like them. The many talents and untiring efforts of Alcoans at Rockdale and throughout the company have contributed immeasurably towards making Alcoa the leader in aluminum for 75 years. Here's to all of these people! As well as to future Alcoans and the skills they will bring to the production of aluminum for uses yet undreamed.

1888—Founder of an industry, leader of its progress—1963

Pat Titsworth Has Champion At State Fair

Three Cameron students placed in the Junior Livestock Show at the State Fair in Dallas October 12, with Pat Titsworth's entry winning the Champion Yorkshire Barrow division.

Miss Titsworth, the 17 year old daughter of Dr. and Mrs. Robert M. Titsworth, is a member of the Cameron 4-H Club. Her entries also placed first in the Lightweight Yorkshire Class and third in the Yorkshire Heavy Weight division.

Jim Titsworth, 8, entered a Lightwight Yorkshire Barrow winning first place with his entry. He also won 15th place in the Duroc Heavyweight Class.

His brother, Tim Titsworth, 11 year old 4-H Club member, placed second with his Yorkshire Heavy weight entry and also fourth and eighth place in the Yorkshire Medium weight division.

Tim and Jim Titsworth are the sons of Mr. and Mrs. Cornelius Titsworth. All three students work under the direction of Mr. Titsworth who is vocational agriculture instructor in Cameron.

The students were accompanied to Dallas by Dr. Titsworth.

Hunter In Training With Peace Corps

Delridge L. Hunter 1959 honor graduate of O.J.Thomas and 1963 graduate of Prairie View A&M College has joined the Peace Corps and is now stationed in Arecibo Puerto Rico for several weeks of training.

Hunter is the son of Mrs. L. E. Hunter 401 S. Burleson Cameron, and the late Lore Hunter. He participated in football and track at O. J. T. and was a political science major at Prairie View.

NEW INSECT CONTROL

A new insect control technique--destruction of the males--has been used by USDA scientists to eradicate the oriental fruit fly on an isolated island in the Pacific Ocean. The entomologists used a strong attractant to lure the male flies to an insecticide that killed them and thus destroyed the species on the island. The technique has possibilities for use on other insects including the dreaded pink bollworm.

County Agent Notes

Rockdale Reports Screwworm Case

by J. D. MOORE, COUNTY AGENT

For the past several weeks the Southwest Animal Health Research Foundation has warned of possible fall build-up of screwworm cases this area. Basis for this expectation is due to the national build-up of all insects during the late season.

zscrewworm Case Reported - a confirmed case of screwworms was reported on October 17, in the Rockdale area. The samples were sent in by Dr. John Parmelee. Immediate plans go into action where these cases are reported including spraying the cattle, stepped up release of sterile male flies and checking of surrounding cattle for additional cases.

Only through prompt reports from livestock producers can eradication workers determine where control measures be implemented.

In addition to sending in samples promptly, stockmen can make a tremendous contribution by following good livestock management practices, such as spraying programs, prompt doctoring or wounds that might draw screwworm flies.

Why your help is needed:

1. To make certain that the usual fall increase in screwworms is prevented

2. To assure that management practices that prevent or control infestations are utilized to the fullest extent.

3. To make certain that every infestation is promptly reported to the proper authorities.

Additional sample bottles for sending in worm specimens are available at the County agents office.

NFA Entries Get High Rating At Dallas State Fair

Entries by the NFA boys at O J Thomas School received high ratings at the Junior Negro Pig Show held October 19 at the State Fair in Dallas.

Competing for the first time, Fredrick Kelly exhibited the Champion of All Other Breeds. He is the son of Mr. and Mrs. Arthur Kelley Sr.

L. S. Stephens had the Reserve Champion Duroc. He is the son of Mr. and Mrs. Lacy Stephens.

Other winners were Kelly R. Anderson, son of Mrs. Cecil Anderson, whose entry placed first in the Duroc Light Weight Division.

Dennis R. Poole exhibited the first place winned in the all other breeds division Also 3rd place Duroc and 9th place Duroc. He is the son of Mr. and Mrs. D. S. Poole.

Van Nelson showed the 3rd place Duroc Light Weight hog. The son of Mr. and Mrs. Van B. Nelson Sr. he is also a member of the NFA.

David Kelley exhibited the 8th place middle weight Duroc. He is the son of Mr. and Mrs. Harmon Kelley Sr.

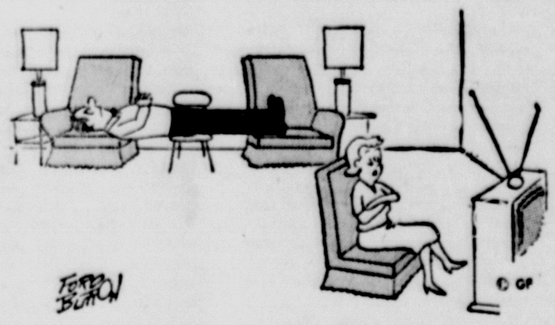
The Cameron boys competed in the show for the first time, going to Dallas with eight entries which all placed, according to D. S. Poole, Voc Ag instructor at O J Thomas.

Rogers Cafetorium Received Two Gifts

Rogers - The new air-conditioned cafetorium of the Rogers Public Schools has already received "two gifts" from school organizations. The Student Council of junior high school presented a set of two nylon flags with stands for the stage. The set consists of an American flag and a Texas flag. Mrs. Ada Jean Cowen is the sponsor.

The Rogers chapter of the National Junior Honor Society presented the cafetorium with custom made draperies for the two windows in the dining area. Mrs. Selma Cannon is the sponsor. The committee to select the material and style consisted of Mrs. Cannon, Mrs. D. D. Ward, Mrs. Imogene Harbour, Mrs. Willie Lynch and Darwin Schwertner.

Participation in the school lunch program has increased 9 percent since the new facility has been in use, according to Miss Lynch, manager.



Sale Of Sides Of Beef Increases

College Station - Despite today's trend toward smaller packages of food and more convenient foods, the sale of quarters and sides of beef is on the increase, says Ed Uvacek, livestock marketing specialist, with the Texas Agricultural Extension Service.

In some cases, says the specialist, buying beef in this form can save the consumer money, but he advises them to look carefully at the economics of such purchasee. Unfortunately, all the carcass is not steak and roast. A large portion is cutting loss, fat, bone and low price cut. In fact, Uvacek says that it takes about 2.16 pounds of a Choice grade live animal to yield just one pound of U. S. Choice beef in a retail store.

In making the decision whether to buy a side of beef, first determine the price of each of the major retail cuts at the local food store. These cuts are rib roast, 8 percent of the carcass; chuch roast, 19 per cent; ground beef, 18 percent; T-bone and porterhouse steak, 6 per cent; round steak, 10 percent; rump roast, 5 percent; sirloin, 8 per cent; and stew beef, 6 per cent.

To compute the total cost of retail beef, multiply the percentage of each of the cuts by the price of that cut in the retail market, explains Uvacek. Then add these individual costs and divide the total by 80 percent, the carcass minus bone, fat and cutting loss. This gives the average retail cost per pound if the beef were purchased over the retail counter.

To compare this price with the one quoted for beef by the side, first divide the price per pound of side by 80 and add the price for storage of the meat, about 5 cents per pound, to decide if buying beef by the side is really a bargain, compare this figure with the retail price per pound, says the specialist.

Other factors to be taken into consideration when buying a side or quarter of beef are to make sure that the same grade is priced in both cases, storage costs may vary tremendously, and remember that processing, cutting and wrapping is assumed to be included in the original quqota carcass price given by the dealer. Also, many low priced cuts, such as flank, plate, brisket and short ribs are included in the ground meat or stew meat percentages, says Uvacek.

MFB County Convention To Draft Resolution

The Milam County Farm Bureau will hold its Annual County Convention Thursday October 24 at 7:30 p.m. in the Farm Bureau office Directors Room Cameron.

Serving on the Resolution Committee are: John A. Smith, chairman Calvin Cobb, Robert Jungmann K. D. Griffin S.H. Curlee and Henry W. Abel.

V. L. Angell president of the Milam County Farm Bureau urges all oting members to attend this meeting and help form the resolution that will ge from Milam County to the State Convention to be held in Fort Worth, Texas Hotel as headquarters November 10 to 14.

Also at this meeting 11 Farm Bureau Directors will be elected to serve a two year term. From the Directors the County Officers will be elected at this meeting.

Delegates to the State Farm Bureau Convention will be named. Milam County Farm Bureau will have 12 voting delegates attend the convention.

FARMERS INSURED

Almost 12,000 Texas farmers are carrying more than $80 million in Federal Crop Insurance protection, says Ben A. Jordan state director. He adds that crop damage claims for 1963 may exceed $3¼ million on cotton wheat and grain sorghum. The claims will be paid to an estimated 3,712 farmers in the 45 counties where all-rist crop insurance if offered. The payments made by the Federal Crop Insurance Corporation a USDA agency do not come from tax funds but from the premiums paid by farmers.

Mr. and Mrs. Malcolm Marion and children, Charles, Bruce and Beth, of Seguin were guests of her parents, Mr. and Mrs. E. B. Yager Sunday.

Yoe High School Lists Honor Roll

Members of the honor roll for the first six weeks of this school year have been announced by Jack Hughes principal of Yoe High School.

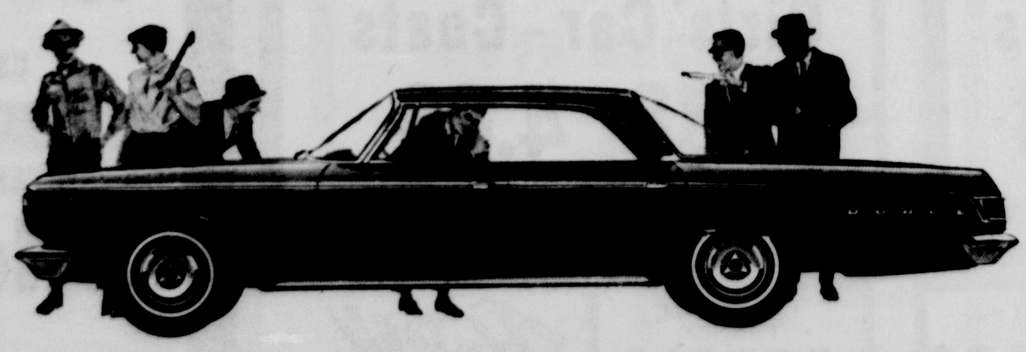
INTRODUCING THE DEPENDABLES FOR '64



Big car lovers! We've got your number...880

Big Dodge 880 may very well turn out to be your lucky number . . . because it puts so much automobile and luxury within your easy reach.

Here's all the car a family man could ask for. A spacious interior. Hand-fitted upholstery. And an easy-going ride that only a large car can give you. Big Dodge 880 looks every bit as expensive as it sounds . . . except when you hear it from your Dodge Dealer. He will tell you that Dodge 880 is priced just a thoughtful step above the low-price field. Make it a point to see and drive the big Dodge 880. Two series, nine models. With each, you get a 5-year/50,000-mile warranty*.

*THE DEPENDABLES' 5-YEAR/50,000-MILE WARRANTY—Chrysler Corporation warrants, for 5 years or 50,000 miles, whichever comes first, against defects in materials and workmanship and will replace or repair at a Chrysler Motors Corporation Authorized Dealer's place of business, the engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excluding manual clutch), torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings of its 1964 automobiles, provided the owner has the engine oil changed every 3 months or 4,000 miles, whichever comes first, the oil filter replaced every second oil change and the carburetor air filter cleaned every 6 months and replaced every 2 years, and every 6 months furnishes to such a dealer evidence of performance of the required service, and requests the dealer to certify (i) receipt of such evidence and (ii) the car's then current mileage.

Take Your Problems To Church This Week

BORN OF CONFIDENCE

"See that fellow over there rolling up his sleeve? He's Joe Smith, one of the best workmen on the job. He does his work well and has time to help others—and brother—this is a he-man's job. On this job he stands out alone. He speaks ill of no one, and say, he has something! He has a God that is just as real to him as you are to me right now. Do you know why? Because, with his family he goes to church regularly each week and it pays off for him with a real, personal God, for through the kind of faith is inspires is born confidence in the MIGHT OF RIGHT."

This Church Feature — Presented To You Under The Auspices Of The Cameron Ministerial Association — Is Made Possible Through The Courtesy Of The Following Cameron Concerns and Individuals.

Hope Lutheran Has 'Partnership In Gospel' Meeting

The members of Hope Lutheran Church, Buckholts met for the first General Committee meeting of their Partnership in the Gospel program on Monday night October 21. Mrs. Lorene Hagemeister of Cameron is general chairman.

The general outline of the program included a devotional by the pastor, the Rev. J. A. Pietsch, Bible study based on I Peter, 4:7-11, an evaluation of need for Christian service, a brief review of mechanics of the Partnership Program, presentation of Vision plans and organization of the working Committees.

Committee chairmen are: Visions, Bob Persky, Rogers; Special Events, Mrs. Alvin Fuchs, Buckholts; Contacts, Monroe Fuchs, Cameron and Public Relations and Clerical, Mrs. Leo Fuchs Cameron.

The second General Committee meeting is scheduled for Monday night October 28 again at 7:30 p.m. at the Educational Building. Bible study will be based on Romans 12: 1-8 and will be led by Rev. Pietsch. Mr. Persky will present a report of the findings of the Vision committee and separate meetings will be held of the four working committees. Mrs. Hagemeister, general chairman, will conduct the closing devotional.

"The Family-A Firm Home Base", Is Rogers PTA Topic

Rogers-- A large crowd of parents and teachers attended the October meeting of the Rogers PTA Monday night in the new cafetorium with the president Mrs. D. D. Ward in charge of the meeting.

The program "The Family--A Firm Home Base", was introduced by the chairman, Mrs. Otis Kovar and presented by the homemaking girls of Mrs. Myrtle Wood, consisting of Treena Cannon, Karen Kovar, Gladys Schiller, Jeanette Kovar and Bonnie Farmer. Homemaking department Freshmen girls of Mrs. Anna Crowder demonstrated their newly made aprons and conducted parents on a tour of the new building, with all of the fine kitchen equipment. They were Donna Gunter, Jan Merka Shirley Harper Belinda Young Judy Pelzia Donna Bales Debra Adamak, Georgia Sloan, Toni Necas, and Jane Lesikar.

The PTA yearbooks were presented by the chairman Mrs. J. E. Northam. She presented the first book to Supt. B. F. Harbour announcing that the books were dedicated to him this year.

Mrs. Derwood Cobb announced that there are now 322 paid up members of the local organization, and that for the first time in several years, 100 per cent of the faculty are PTA members. There are five life members included in the 522.

Mrs. Tumlinson Is Officer Of Milam GOP Organization

Mrs. Jack W. Tumlinson of Cameron was elected First Vice President of the recently formed Republican Women's Club of Milam and Bell Counties during a meeting of the organization on Thursday morning at the Temple Country Club.

Mrs. Tumlison was among a group of Milam County Republican women who attended the meeting. They joined about 75 women from the Central Texas area.

Other officers elected at the session were Mrs. Charles F. Hanson Jr. as president, Mrs. George N. Hester, second vice president, Mrs. Charles W. Broders, secretary, and Mrs. William L. Maedger, treasurer, all of Temple. The officers will serve during the coming year.

The program also included the showing of a film on tactics of a political organization at the precinct level.

The next meeting is scheduled for Thursday morning, November 21st, at the Temple Country Club.

Homemakers Class Has First Meeting

The Homemakers Sunday School Class of the First Baptist Church met Oct. 8 for their first business meeting of the new church year with Mrs. W. A. Heath presiding. Mrs. C. E. Curtis Sr., teacher, gave the opening prayer.

Mrs. John Ryan gave the devotional. Closing prayer yas given by Mrs. Dave Hemanes.

Mrs. R. A. Swanzy and Mrs. Raymond Green were hostesses in the home of Mrs. Swanzy honoring their mother Mrs. Craddock.

Folloying the meeting a covered dish luncheon was served by the hostesses assisted by Miss Mary Lee Green. Fifteen members enjoyed the social hour.
